Library Board Seeks State Funds For Building Plans

Albany City Councilmen today were awaiting the written opinion of the City Attorney on whether \$3000 in State matching funds can be used for acquisition of property for the proposed north outfall sewer project.

Action on the question came Monday night after a letter was read from the Library Board requesting that \$1800 of the State money be used for preparing plans for the new city library building.

The Board of Education has offered the city a 99-year lease on the Cornell School property at \$1 per year, providing a library is built on the site and construction is completed by 1954. The board also requested that the proposed library include a room for an Adult Education class.

The Council last week allocated a certain amount for the sewer project.

However, Councilman John C. Baker Monday night asked that the Council rescind its action and allocate \$1800 to the Library Board. He was supported by Councilman one Blank, but Councilwoman one Katinie Zahn objected to giving any of the funds for the library.

She objected on the ground that the library had rejected a library bond two years ago, and she said voters should decide on the matter at the next city election.

Baker said that election figures showed that a majority of voters had approved the bond issue, but that it failed to receive necessary two-thirds vote to pass.

Baker then asked that the City Attorney prepare an opinion on the city's proposed use of the \$1800 on the sewer project. Mrs. Blank also asked for the opinion requested that it be in "writing."

A motion of Councilman Baker, the Council approved a resolution and the Safety Commission be asked to make recommendations on police and engineering departments. Each Councilman will appoint a member to the commission.

The recommendation of Police Chief Stanley C. Williams, the Council authorized the temporary filling of Hillside Ave. in an effort to eliminate "malicious mischief" in the dead-end street. Residents of Hillside Ave. recently complained of trucks being thrown at houses in the hill street and that numerous windows had been broken by shots.

Other business, the Council adjourned "with regret" the resignation of Officer Dave Perkins, who was to drive a truck for a transportation company.

A low bid of \$7217 was accepted from Lee J. Immel to resurface Brighton Ave. from San Pablo to Key Route Blvd.

Albany High Streamlines Social Studies

New and streamlined changes in the social studies curriculum at Albany High School have been instituted during the present school year.

In the spring of 1950, social studies teachers representing all schools in the district participated in a workshop to study and evaluate the curriculum. Modernization of the curriculum from kindergarten through the 12th grade was a direct result of this work.

The high school social studies program is now in line with the Social Studies Framework adopted by the State Curriculum Commission on July 7, 1945.

The State Framework calls for a study of the world of industry in the ninth grade. Albany High School offers a program entitled "Understanding Our Working World," which includes a consideration of basic resources, the problems involved in processing, manufacturing and distributing these resources in useful forms, and a consideration of the human problems involved in a complex industrial world, including the problem of choosing a vacation. Stress is also laid on world problems arising over the struggle for basic resources.

A work book for the ninth grade course was written by L. P. Broliar, social studies teacher, and was published in mimeographed form by the high school this spring.

The tenth grade program called for by the State Framework is a study of world history. Such a course is offered under Miss Winifred Goode.

In the eleventh grade, United States history and civics is called for by the state, and Albany high school offers just such a course under Phillip Elwood.

The twelfth grade offering at the high school involves the study of economic, social and personal problems under Miss Winifred Goode. This course, too, parallels the state recommendation.

RED CROSS QUOTA NEARS HALF MARK

Red Cross - - - The Great Helper

Many arguments can be advanced on why the American people should support the Red Cross.

When disaster strikes, in time of emergency, it is your family, your neighbor and the Red Cross that lend a helping hand. It is the Red Cross, too, that brings a little cheer and a little recreation to American troops, both at home and abroad.

When flood waters raged through Central California a few months ago, the Red Cross was on the job immediately providing food and shelter for the flood victims and aiding in rehabilitation. This assistance cost the Red Cross nearly half a million dollars, yet, it was but one of the many occasions in which this great organization gave a helping hand.

The Red Cross, at countless swimming pools, teaches young and old the rudiments of swimming and the know-how of life saving. The list of services goes on—and it's impressive.

This year the national goal is \$85 million, a sharp increase over the 1950 quota. This is due to the added responsibilities in the Civil Defense program and the new burdens of the Korean War, both in Korea and in veterans' hospitals in this country.

Make your contribution today—and make it generous.

For new brides or housewives who need reminding: always iron monogrammed towels, scarves and handkerchiefs on the wrong side over a Turkish towel. Ironing on a hard surface or on the right side flattens the raised finish.

Here's a flavorful topping for fish fillets that's both inexpensive and simple. For each serving cream together a tablespoon of vitaminized margarine, a teaspoon of lemon juice and a little finely minced parsley. Drop on each serving.

For flower-lovers: whitewash the insides of wooden flower boxes before filling with soil. This discourages insects and prevents the wood from rotting.

A plain lettuce wedge salad won't seem so uninspired and lazy-styled if it's crowned with a dressing like chopped pickles and olives added to real mayonnaise.

A package of paper spoons makes a convenient addition to your medicine cabinet. Handy for taking medicine and easily disposed of.

Newlyweds Home

The bridegroom is the son of Dr. and Mrs. Ernest Sachs of North Haven, Conn., and a senior student at U.C. Dr. Sachs is a member of the medical staff at Yale University.

Grapefruit Halves
Good Tonics

Tangy Florida grapefruit halves, dressed to fit the occasion, will prove a perfect addition to late winter meals, particularly since they pack a punch of Vitamin-C goodness, so important during these months in warding off colds. Use green or red jelly cut in interesting shapes—a heart for February birthdays; a shamrock for St. Patrick's Day, with luckybunny leaves around the edge of the grapefruit half; your favorite preserves; shredded coconut and tangerine sections for an ambrosia-like first course; or flaked seafood and sliced olives for an appetizer. Grapefruit is a particularly good buy during February, when special shipments are being made to stores in all parts of the country.

With so many busy women marketing only once or twice a week, it may be a needed reminder that chopped hamburger meat should never be kept more than forty-eight hours.

A word to the wise: conserve shoes now in case a shortage of leather develops and one of the best preservations is shoe polish—that's right, the oil of shinsola.

As with sliced apples, bananas, fresh peaches or pears, you have to squeeze lemon juice over cut avocado. Otherwise it will turn a dark, unappetizing color.

**Make Clothes
Last Longer!**

As our preparedness program swings into high gear, cutting into peacetime production, it becomes more and more important for us to conserve the things we now have. This is in line with President Truman's economic message to Congress that Americans will have to "make their household goods last longer, their linens and their clothes." With the aid of a no-rinse detergent in tub or washing machine—eliminating much abrasive handling and wringing—we can give our clothes that new lease on life. No wonder the housewife is so pleased to see her linens looking lovelier than ever, after repeated washings in the no-rinse detergent, which saves wear and tear on fabrics, and conserves hot water and fuel, as well. This modern No-Rinse Surf method is no overnight development. It is the result of over five years' laboratory research by one of the country's leading manufacturers of soaps and detergents. The soil is extracted from the clothes, held in suspension in the wash water and, since the no-rinse detergent does not permit soil to be re-deposited on the fabric, no rinsing is required. All the dirt flows out with the water in wringing, leaving the garments soft and sweet-smelling, with not a bit of scum on clothes or tub.

ALBANY

TO THE CITIZENS OF ALBANY

On March 5, 1951, the Albany Library Board requested of the Albany City Council to make application for \$1,800—of the MATCHING FUNDS available from the State of California under provisions of Chapter 47, for the preparation of plans for a NEW LIBRARY building in Albany. (This means that the \$1,800 have to be matched by an additional \$1,800 from the Albany taxpayers' money). Now then the question arises:

DOES THE ALBANY TAXPAYER WANT TO CONSTRUCT A CITY LIBRARY ON Solano Ave. between Cornell and Talbot Avenues?

This particular piece of property was offered by the Board of Education to the Albany City Council under a 99-year lease agreement and subject to the following conditions:

(1) The above mentioned property shall be used by the City for the construction of a public LIBRARY BUILDING.

(2) In addition to the library rooms, the building shall contain a CLASS ROOM of approximately 1200 square feet, to be used by the school district for ADULT EDUCATION CLASSES.

NOW THEN, HERE ARE THE FACTS ON THIS SUBJECT:

(a) This project is being crammed down the taxpayers' throat by a SMALL group of people, who were instrumental in the fall of 1948 in proposing the erection of a new LIBRARY BUILDING. At THAT time, if you remember, there was a SPECIAL ELECTION called to settle that question and the people voted the Library Building DOWN.

(b) In my opinion a Library and an "Adult Education Class" should NOT be housed in the same building. An "Adult Education Class" by necessity is noisy, whereas people visiting a "Library" MUST be quiet so as not to disturb each other while reading.

(c) While I believe that Albany should have good library accommodations, I doubt whether the proposed site for the new library building in front of the Cornell School is even CONVENIENT to the citizens who NOW patronize the library located near Santa Fe Ave. and the one in the City Hall.

(d) The Board of Education demanded that construction of the Library Building MUST start not later than January 1, 1954—that is two and one-half years from now. I believe that the people of Albany should have a chance to voice an opinion on this matter and I therefore proposed at the council meeting that this important question be placed on the ballot at the next city election which is next year in April. AS USUAL MY PROPOSAL WAS IGNORED.

(e) NO INVESTIGATION HAS BEEN MADE to determine whether there are BETTER opportunities by which Albany might realize a Library; NO STUDY HAS BEEN MADE of OTHER possibilities (i.e. cheaper renting). I feel all possibilities should be INVESTIGATED FIRST, and by the comparison of facts and figures the BEST and most ECONOMICAL course of action open to the City of Albany should THEN be determined. BUT FIRST OF ALL, WE THE COUNCIL SHOULD GET THE OFFICIAL CONSENT OF THE TAXPAYERS WHETHER OR NOT THEY WANT TO FINANCE SUCH A PROJECT, BEFORE WE SPEND ONE SINGLE DIME OF THE TAXPAYERS' MONEY.

(f) What will the cost be to the taxpayers? Not ONLY of the construction of the "Library" and the "Adult Education Room," BUT OF MAINTENANCE, JANITOR SERVICE, HEAT, LIGHT, WATER, REPAIR, LANDSCAPING AND GARDENING for the "Adult Education Room" which comes under the jurisdiction of the Board of Education? A 99-year lease is a LONG, LONG time for taxpayers to hand over money for such arrangement.

(g) Presently there are NO PLANS of HOW TO FINANCE this COSTLY project.

(h) The building—upon completion—at ITS BEST will look like a CROW'S NEST. I urge you taxpayers to go down to the Cornell School and take a look at the REMAINING EMPTY space on which the LIBRARY BUILDING is to be erected, SHOULD THE PROPOSED PLANS GO THROUGH.

(i) AS IN THE PAST, Mr. William YOUNG—"Pet Architect" of the "Albany Clique" is in charge of this project.

At a time like this WHEN MONEY IS SO SCARCE, should the Albany taxpayer be burdened with a project of this kind? Please discuss this with your friends and neighbors if you feel the same way as I do.

THE common cold PUZZLE

Death and taxes may be the surest things on earth, but there's a close runner-up about this time of year. It's the "common cold." There are 94 chances out of 100 you'll have one in 1951.

What causes and what cures the nation's most prevalent disease, is still the subject of argument among medical experts. They generally agree that most colds are caused by a virus, or perhaps several different viruses. But there is a growing belief that some "colds" are not what they appear to be, but are actually upsets of the allergy-type. Emotional tensions, say some authorities, often produce in the victim a condition which looks, feels, and acts just like a genuine germ-produced cold.

Confusion as to the cause of colds notwithstanding, the medicals have gone ahead trying to solve the puzzle of a universal cure. To date, no one antidote has proved to be 100 per cent successful. While they argue the comparative merits of ultra-violet lamps, chemical air purifiers, penicillin, the antihistamine drugs and a score of other remedies, the oldest and simplest treatment still seems to work the best for the most people: go to bed.

While the American public annually doses itself with some \$300 million worth of cold "cures," just going to bed and "sleeping it off" still seems to be the most effective means of knocking out the cold bug, according to most experts.

What can the suffering public do about colds? Doctors tell us that we can reduce the cold toll considerably by taking a few easy precautions. Here are their suggestions:

1. Steer clear of anyone who has a cold.
2. Keep healthy by eating the right foods, getting enough fresh air and exercise, plenty of sleep.
3. Use proper protection against the weather—warm clothes for cold days; rubbers, overshoes and rainwear when it's stormy. Avoid getting chilled, and stay out of drafts.

If, in spite of all this, you feel a cold coming on, go to bed and rest. Eat light, nourishing foods, drink plenty of liquids. If the cold persists or if your temperature lingers above the 100° point, call the doctor. If you do try a "cold-cure," follow the manufacturer's directions. Don't overdose.

And, of course, try to keep your cold to yourself. Don't give it to your family and friends—or the first thing you know, it may be back to you again.

These and other facts about the nation's "No. 1 disease" are found in a free booklet called "KER-CHOO AND YOU" published by the Rubber Footwear Division of The Rubber Manufacturers Association, 444 Madison Avenue, New York 22, N.Y. They'll be glad to send you a copy on request.

MEAT CUT Quiz

Q. What is the name of this cut of meat?

A. American leg of lamb.

Q. Where does it come from and how is it identified?

A. As the name implies, it is the leg of lamb, corresponding to the round of beef. For this style leg, the meat is peeled back from the shank, then the bone is removed. The meat from the shank is tucked back under the fell and pinned in place.

Q. How is it prepared?

A. By roasting. It is placed skin side down on a rack in an open roasting pan. No water is added. The leg is roasted in a 350° F. oven allowing 30 to 35 minutes per pound. A roast meat thermometer inserted in the meat before cooking will register 175° F.-180° F. when the roast is done.

Meet The Five Star Cast of the Hilarious CBS "OUR MISS BROOKS" program

By LYN WILSON—ANS Radio Editor

(from right to left at top)

EVE ARDEN—radio's school teacher has chalked up two of the 1950's most flattering awards . . . voted best comedienne in the Annual National Poll conducted by Motion Picture Daily and awarded a certificate of recognition by a group of teachers for "her meritorious service to public education and thereby to American youth and the teaching profession."

JEFF CHANDLER, who plays Mr. Boynton, the object of Eve's affection on the program is, at the same time, creating quite a sensation in films. Jeff also appears regularly on two other top radio shows.

GALE GORDON, as high school principal, Mr. Conklin, began his career in films and his only vacation from the theater was during his service as chief gunner's mate in the Coast Guard during the war. He adds up 23 successful years of acting on the air.

(in inset)

FLORIAN McMillan, radio veteran at 16, was a blues singer at the age of 4 and featured regularly on a Portland, Oregon radio station. He attends "radio school" as Harriet, the principal's daughter and in real life continues her education at Westlake High School for girls in Los Angeles.

DICK CRENNAN, cast as student Walter Denton is also one in real life and attends the University of California. During high school days an important football game was interrupted by the dramatic teacher to permit the boys across the street for a radio audition. Disgruntled and audacious, Dick went. His radio career began and has continued ever since.

Boston Baked Beans Served With Molasses Distinction

Come Saturday night, many a New England household sits to a repast of appetizing, molasses-sweetened baked beans plus brown bread. Since to pass these two foods is to pass the word along, enjoyment of them has spread across the country. The molasses called for in the baked bean dish is unsulphured . . . the sweet, aromatic kind New Englanders have been using since colonial days.

Here are the steps to make a savory baked bean dish for the family. The canned brown bread may be sliced and served hot or cold.

Baked Beans (Quick Method)

4 cups (2 lbs.) dried beans
Cold water
1 large onion
4 teaspoons salt
1/2 cup unsulphured molasses
1/2 teaspoon pepper
2 teaspoons dry mustard
2 tablespoons Worcestershire sauce
1/2 pound salt pork
Wash beans. Cover generously with cold water; soak overnight. Add onion, salt, and if necessary, additional water to cover beans; bring to boiling point in covered saucepan. Remove onion; reserve. Simmer beans until tender. Drain; save 3 cups bean liquid (add additional water to make 3 cups, if necessary). Mix bean liquid with molasses, pepper, mustard, and Worcestershire sauce. Turn beans, onion, and salt pork into large casserole or bean pot. Add liquid mixture. Cover. Bake in moderately slow oven (325°F.) 1 1/2 hours. Uncover. Lift pork to top of beans; bake 20 to 25 minutes to brown pork. YIELD: 16 servings.

Old Fashioned Baked Beans

Simmer beans only until beans are half done (skins break). Bake in slow oven (300°F.) 6 to 8 hours.

The tumult and the shouting dies;
The Captains and the Kings depart;
Still stands thine ancient sacrifice,
An humble and a contrite heart.
